E-MAIL: wanrua@ozemail.com.au
CONTACTS: Andrew and Caroline Manson
Ian and Thea Manson

STUD HISTORY:

The stud was founded in 1954 with the purchase of Kildrummie Samson 3, Reserve Junior Champion at the Melbourne Show. The foundation females came from Kildrummie and Mt Hamilton Studs. Over the years, the stud has added other female bloodlines. These come from Deepfields, Langowan, Shady Creek, and more recently Homeden. In addition, females were purchased from South Caramut, Ardno, Craigielea, Peneplain, Glendon and Yarram Park.

Weight information has been collected on the herd since 1985, and since 1995 we have added scanning information to our Breedplan data. Many of our sires used have been trait leaders in Breedplan. Our herd is currently MN1 status.

Wanrua in recent years has been combining old and new bloodlines, which has involved using particular Canadian and American bulls over traditional Australian cows. Wanrua is aiming to produce efficient and functional cattle that have the ability to put on weight in different environments which may confront them.

Recent Show success has included the Grand Champion Bull and Supreme Champion Exhibit at the 1999 Royal Melbourne Show with Wanrua Stirling. In 2002 Wanrua Stirling's first son, Wanrua Bonfire, won the Junior and Grand Champion Bull at Naracoorte Bull Show and Sae in South Australia.

SIRES IN USE: Wanrua Stirling, Wanrua Ambassador, Wanrua Vengeance.

AI Sires: Hills Galore Architect 33D, Wiranya Exeter, Centennial Tudor.

DIRECTIONS

Situated at Websters Rd. Newry, approximately 15 kms from Maffra and Heyfield.

Visitors and enquiries welcome.
